

Smart Pontoons

LIVE TOMORROW, **TODAY**

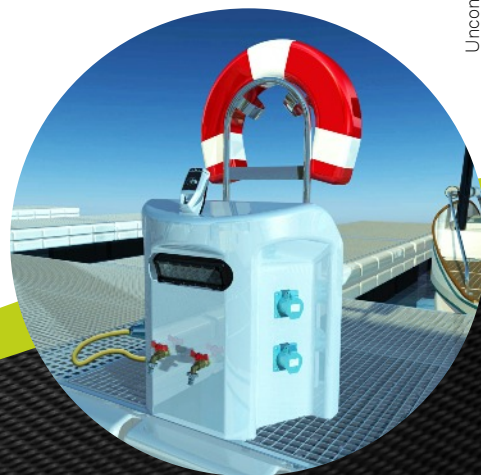

Solar pontoons with storage batteries
Modular system to create green marinas

The Smart Pontoons are solar and **modular pontoons** aimed to create green marinas. Thanks to the **sun** and to **the current of rivers**, they can store energy in second-life batteries in order to recharge **any kind of vessels**.

The Smart Pontoons Module:

- 3 solar panels of 300Wc
- a storage compartment (batteries, sewage...)
- guardrails
- charging points
- shade structures
